Carol,

I'm in the middle of something else right now and leaving early today. I'm on VC Thursday and Friday so it would have to be tomorrow.

Thanks,

Steve

Hi Nidal - Here's a quick heads-up.

CA725 (human health risk currently under control) - I am copying Steve Scharf, the DEC project manager, on this e-mail. My understanding is that most of the work to protect human health either has been done, or currently is being planned. (Steve - can we talk sometime this week about the remaining work that needs to be done, and when we anticipate that it would be done?)

CA750 (groundwater migration currently under control)- Although a lot of work is being done to delineate the groundwater plume (approximately 3 miles long and 1 mile wide), we don't yet have a time-frame for when we can safely say that groundwater migration is under control. As this is a highly charged political issue, we want to be very confident about this before we make this determination.

Carol,

I am in the process of updating the status of the GPRA 2020 facilities. Can you please provide me a status update and anticipated achievement target date of the CA725 and CA750 for the Northrop Grumman facility? Thank you

PROJECT MANAGER	SITE ID	SITE NAME (2020B)	CA550 Target Date (0 = Achieved) (1:FY 14- 16), (2: FY 16- 18), (3: FY 19- 20), (4: > FY 20)	CA550	CA725 Target Date (0 = Achieved) (1:FY 14- 16), (2: FY 16- 18), (3: FY 19- 20), (4: > FY 20)	CA 725	CA750 Target date (0 = Achieved) (1:FY 14- 16), (2: FY 16- 18), (3: FY 19- 20), (4: > FY 20)	CA750
